MARLOW Double Vanity Suite – Cabinet (MV-6022)

Description

The Marlow vanity cabinet is a 60-inch freestanding bath cabinet constructed of solid birch with a plywood box. It features two soft-close doors and six dovetailed drawers, and is sold as part of the coordinated Marlow Vanity Suite (Model MV-6022). Note: the scheduled item U-36 calls for a 36-in cabinet; the source document covers only the 60-in double configuration — confirm with manufacturer whether a 36-in single variant is available under this model line.

Dimensions

60 in W x 22 in D x 34 in H (as documented; 36-in width per schedule not confirmed in source)

Materials

Solid birch cabinet with plywood box construction

Finishes

Dove white, storm grey, or natural birch cabinet finish; polished nickel or matte black hardware

Certifications

CARB Phase 2 compliant casework

Important Specifications

- Model: MV-6022 (60-in Double Suite)
- Two soft-close doors and six dovetailed drawers

DRAFT 7/9/26 - NOT FOR CONSTRUCTION

- Sold as coordinated suite with marble countertop and undermount basins
- ■ Schedule calls for 36-in width — source only documents 60-in; verify 36-in variant availability with manufacturer

Installation Notes

Secure cabinet to wall studs using included cleats. Rough-in drain at 21 in AFF recommended.

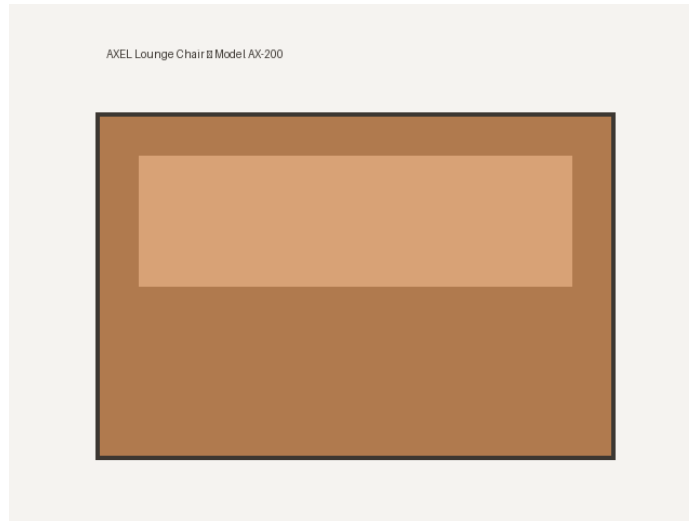

Care Notes

Wipe cabinet with damp cloth. Avoid harsh or abrasive cleaners.

Nordform Studio

AXEL Lounge Chair — Model AX-200

Description

The AXEL Lounge Chair (Model AX-200) by Nordform Studio is a residential and light-commercial lounge chair featuring a solid white-oak frame with a molded plywood shell. The seat and back are upholstered in top-grain aniline leather. The chair is available in three frame finishes and three leather colorways, and ships fully assembled.

Dimensions

30 in W x 32 in D x 28 in H; Seat height: 16 in

Materials

Solid white oak frame, molded plywood shell, top-grain aniline leather (seat and back)

Finishes

Frame: natural oak, smoked oak, or ebonized oak. Leather: cognac, charcoal, or ivory.

Certifications

ANSI/BIFMA X5.4 tested; GREENGUARD Gold certified

Important Specifications

- Model number: AX-200
- Weight capacity: 300 lb
- Intended use: residential and light-commercial

Installation Notes

Ships fully assembled. Attach included felt glides to legs before placing on hardwood floors.

Care Notes

DRAFT 7/9/26 - NOT FOR CONSTRUCTION

Vacuum leather weekly using a soft brush attachment. Condition leather twice per year. Wipe oak frame with a dry cloth; avoid silicone-based polish.
